To Whom It May Concern,

I am writing to recommend Thanh Tung Vu for any software engineering position or related opportunity. Over the past six months, I have had the pleasure of mentoring Tung during his internship at Datadog, where he designed and implemented an audit system for the main service my team is working on. His contributions have been extremely helpful, and I am confident he will be an asset to any team he joins.

From the beginning, Tung has shown great ability to question the status quo and propose new ideas to enhance our existing systems and workflows.

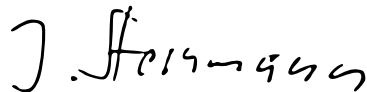

He is also strong in quickly grasping new technologies. When introduced to Bazel, our build tool, Tung quickly became proficient and coached me and other teammates on new ways to use it.

Tung is a dedicated and driven individual. I am confident that he will succeed in any role he pursues and make meaningful contributions to your organization.

Please feel free to contact me at jannik.steinmann@datadoghq.com if you have any further questions or require additional information. I enthusiastically recommend Tung and wish him the very best in his future endeavors.

Sincerely,

Jannik Steinmann
Software Engineer II
Datadog
